

## EMPLOYMENT MEDICALS

The 2CRisk *My*health App affords organisations the ability to design and implement their own pre-employment questionnaires from the 2CRisk Employment Medical application.

Applicants can be sent a secure link to our Apex App where they can simply log into and complete their online questionnaire, anywhere, anytime.

Look and Feel, as well as messaging and content management allows any organisation to set the application up with logos, style and content to match the corporate experience.

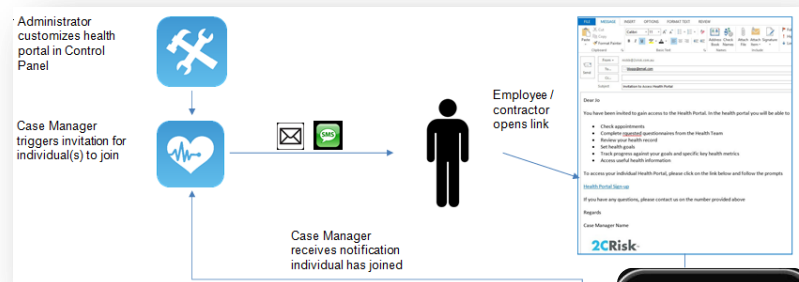

*Take your Pre-Employment process to the next level. Engage with the applicant online and save time*

## ORGANISATIONAL BENEFITS

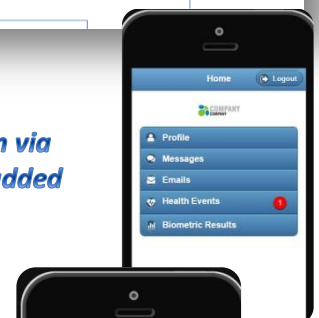

- ✓ Medicals that actually screen for identified health risks
- ✓ No longer a one size fits all approach – you choose or create the medical questions - effective for blue & white collar roles.
- ✓ Copy employment medicals to build periodic medicals for consistency.
- ✓ Employment medical information available for future use.
- ✓ Encourages HR, OHS and the individual to collaborate on maintaining health & productivity.

- ✓ Privacy Statements set up and must be accepted to progress.
- ✓ Looks and Feels like your product
- ✓ Tailor the medical questionnaire based on occupational or regulatory requirements.
- ✓ Compare individual health risks with occupation and location risks.
- ✓ Use the medical results to baseline health and build a unique health plan to maintain health when you employ.
- ✓ Provide restricted access to enter or view medical results.
- ✓ Automated work flow and notifications to Case Manager.
- ✓ 2 Factor Authentication for added security layering.
- ✓ Email and SmS capabilities.
- ✓ Answers to questions made available to Case Manager in real time.
- ✓ PDF reporting
